SECTION E: SCOPE OF ACTIVITIES, OBJECTIVES, AND DELIVERABLES

Task Order Title:	Producing and Broadcasting an 11-Episode Entertaining TV Show (Quiz Based Reality Show) on Tuberculosis under USAID's ACTB
Introduction:	<p>The objective of the task is to produce and broadcast an 11-episode entertaining weekly television show (quiz-based reality show) on tuberculosis which will target the following audiences: young people, adult males and females as primary audiences from both urban and rural communities across Bangladesh; service providers, community leaders, teachers and other gatekeepers as secondary/influencing audiences. The intervention needs to reflect personality, values, attitudes, interests, and lifestyles of the audiences, focusing on the primary audiences. The campaign will counter TB stigma, myths and misconception and attempt to make it normal to seek TB services through subtle integration of TB health messages in the communication materials and outputs. Moreover, for successful implementation use of a gender lens is mandatory – warding off existing gender norms and roles, gender relationships, gender inequity that affect initiatives to end TB from Bangladesh.</p>
Background:	<p>Why build a TB campaign using television?</p> <p>To end the TB epidemic, an integrated approach to address TB issues such as stigma related to TB, behaviors that drive and stops individuals and communities from seeking free TB services are key to success. When popular media intervention is crafted for a cause, it expedites working across geographical locations and diverse population backgrounds in an inclusive fashion. Moreover, entertaining yet subtly informative contents drives general population and all other stakeholders in the fight against the TB epidemic. It helps confront stigma and social isolation associated with the disease as well.</p> <p>Use of diverse media such as television, social media, etc. have proven to be useful in social and behavior change communication for public health causes. Crafting and translating health messages in the laypersons' term and building a campaign over the years will mobilize and engage target populations to help fight the TB epidemic. With the advent of the internet, more contents are accessible through different media</p>

	<p>to diverse population. Capitalizing on this opportunity, a momentum can be built for TB causes.</p> <p>Gaps in TB communications</p> <p>In recent times, there has not been much TB communications for mass population. Though an estimated 115 people die from TB every day, TB still remains some forgotten agenda in the society. Moreover, TB is popularly seen as “poor people’s” disease, thus it is the problem of weaker segment of the society. As a contagious disease TB can affect anyone and it does so. Lack of resources in developing TB communications is a key factor. As USAID’s Alliance for Combating TB in Bangladesh is committed to promote TB related messages among general people, an awareness raising campaign using TV and social media seems deem necessary for the goals related to end TB from Bangladesh.</p> <p>Use of diverse media</p> <p>TV is a popular media in Bangladesh. With TV, the internet has made other media such as social media to public available at comparatively lower cost. Facebook dominates the social media platforms in Bangladesh.</p> <p>Long-term vision</p> <p>With a common goal of ending TB from Bangladesh, it is worthwhile to build a campaign over years that will work as a model for future media endeavor from different stakeholders, including government counterparts. The campaign has to be homegrown, with its roots in the rural Bangladesh and surpassing rural boundaries to reach peri-urban and urban communities of Bangladesh. With a wholistic media interventions, the targets set for Bangladesh by different agencies can be achieved meaningfully.</p>	
Objectives:	Technical Objectives:	Build an awareness raising campaign on TB through television and social media
Scope:	<ul style="list-style-type: none"> • Produce and broadcast an 11-episode entertaining weekly television show (quiz-based reality show) • Coverage: The entertaining show will be broadcasted on a television channel and later uploaded on their social media platform(s); hence is expected to cover whole Bangladesh where these platforms reach. • Entertainment: Educational messages should be blended in such a way that audiences will view the show as an 	

	<p>entertaining one and immerse with the episodes and their contents.</p> <ul style="list-style-type: none"> The campaign will counter TB stigma, myths and misconception and attempt to make it normal to seek TB services through subtle integration of TB health messages in the communication materials and outputs. Moreover, for successful implementation use of a gender lens is mandatory – warding off existing gender norms and roles, gender relationships, gender inequity that affect initiatives to end TB from Bangladesh.
